Connect with members and attendees in real-time with conversational texting and keep them engaged throughout the week.

We know it can be difficult to connect with your people

People see on average **5000 ads per day** and have **200+ emails** in their inbox – most of which they ignore. We help make it simple to connect to new visitors and keep your church engaged.

Engage Your Church

From New Visitor to Mature Member

Use an easy-to-remember short number during services so your visitors and members have a convenient way to give or connect with leadership.

Add your member lists and send a highly personalized call-to-action. It is so easy, our team will even do your first campaign for you.

Visitors and members will not need to learn a new number, update their contacts, or opt-in to another service, even if you change ChMS platforms.

Here's How It Works

Frequently Asked Questions

We're here to help.

Can I cancel at any time?

Yeah! If Rally isn't working for you and we can't help you engage your church and mobilize your mission better, you're free to cancel.

But before you do, book a free strategy session with our team. Several of us are active church leaders, and our CEO is a (recovering 😊) church planter. We'll discuss how others use the tool to drive engagement with their community and cover the costs for a few months while we dial it in together.

Why so many "credits"?

Most companies charge by the number of messages you send and receive by character count (often just 160. Do you know a pastor who can say anything in 160 characters?!).

To make matters worse, they nickel and dime you with hidden fees. Not Rally. We know you wear multiple hats and don't want you to worry about how many credits you've used this month so we've created our plan to be simple. Send as many messages as you need; if you get stuck or need help, just let us know. We've got you covered!

Do you take fees from the donations we receive?

No, Rally does not charge transaction or processing fees on any of the donations you collect. Since we link out or integrate with every fundraising platform, we give you full control to maximize the funds you receive.
