- **Meeting time:** 8:40
- **Meeting place:** [Nádraží Veleslavín Bus Stop, Platform 1](#) (just behind the escalators). Easily accessible from the venue by Metro A, station Nádraží Veleslavín.

- **What to expect:** A guided tour of this unique museum, which features life-size dinosaur skeletons as well as an interactive exhibition with an educational programme on the evolution of life on Earth.
- **Transport and directions:** We will take bus No. 322 from Nádraží Veleslavín Station to the Tuřoměřice, Outlet stop. The entrance is inside the shopping and entertainment centre

Excursion 1

Dinosauria Museum Prague

At Dinosauria, we have six original skeletons of Mesozoic reptiles from the USA. Visitors can see a *Triceratops*, *Edmontosaurus*, *Diplodocus*, *Allosaurus*, and two mosasaurs. All skeletons are more than 70% complete, and some of them display significant pathologies.

The exhibition is complemented by models created by the renowned studio Blue Rhino, including a *Tyrannosaurus*, *Stegosaurus*, *Quetzalcoatlus*, and *Pteranodon*.

In addition, the museum features a large mineral collection with around 6,000 specimens, as well as a smaller section dedicated to fossils from geological periods other than the Mesozoic.
