

CARIBBEAN PROGRAMME — INTRODUCTION STATEMENT — JUNE 2026

To the Honourable Ministers, Directors General, and Officials of the Caribbean Region,

On behalf of **Digital World Networks (DWN)**, it is my privilege to introduce the materials contained in the two folders I have placed before you today. My name is **Patrick Glemaud**, and I serve as **Caribbean Programme Director** for Digital World Networks — a global digital infrastructure platform operating across **188 countries, 642 cities, and 11,199+ digital solutions** through a network of over 351 specialised industry partners. I am based in Toronto and work extensively across the Caribbean, representing DWN's technology partnerships to governments, ministries, and regional institutions.

The materials I am presenting today represent **15 distinct programmes** across two strategic pillars: financial services and digital modernisation. Together they address the Caribbean's most pressing priorities — water infrastructure resilience, energy security, digital governance, cybersecurity, transportation, agricultural digitalisation, carbon credit programmes, strategic petroleum reserves, digital tax administration, and institutional currency exchange. Each programme is backed by a world-class partner with proven government deployments across multiple continents.

Our Caribbean Legal Representative, **Clarke Gittens Farmer (CGF Law)** of Barbados — a LexMundi Member and World Services Group partner firm — has reviewed these partnerships and is pleased to facilitate their introduction across the region.

TWO PROGRAMME FOLDERS

BLUE FOLDER

Financial Services Programme

- USD or EUR ↔ Caribbean Currencies — up to \$20M per transaction per business day
- Institutional FX rates — FCA-authorized London partner
- Physical Gold Exchange — licensed trader in Gabon
- Large-scale Cryptocurrency Exchange

RED FOLDER

Caribbean Digital Programme (14 Initiatives)

- Water (Xylem) · Petroleum (Crowley) · Smart Cities (Honeywell)
- eGovernment (Granicus) · Security (Genetec) · GIS (Esri)
- Cybersecurity (Cisco Duo) · Clean Energy (Ignite)
- Transport (Miovision) · AgriERP (FarmERP)
- Carbon Credits (Climate Impact) · AgriTech (AGRIVI)
- Digital Tax (TaxOnline) · Digital Identity (Ascertia)

HOW THE PROGRAMME WORKS

Step 1

Review Brochures

Read through each brochure. Each contains a full overview, solutions summary, and Caribbean benefits.

Step 2

Complete Questionnaires

Complete the questionnaire for each programme of interest — approximately 10 minutes per programme.

Step 3

DWN Submits

We submit responses directly to each partner's Caribbean or government team with your territory's context.

Step 4

Receive Proposals

Each company sends with a tailored programme proposal, pricing, and deployment timeline — at no cost.

Step 5

Meet the Teams

We introduce you directly to the key contact at each company for demonstrations and further discussions.

A **Partner Websites Reference Sheet** is enclosed listing the official website of every company we are introducing, so your team can conduct independent due diligence on each partner. There is no cost and no obligation at any stage of this process. Please feel free to reach out at any time — by phone, email, or WhatsApp.

COMPLETE PROGRAMME SUMMARY — ALL 15 INITIATIVES

Blue (B) = Currency Solutions financial services programme. Red (R) = 14 Caribbean digital infrastructure programmes.

F	PARTNER	PROGRAMME	KEY BENEFIT
B	Currency Solutions (London)	FX, Gold & Digital Asset Programme	Institutional FX up to \$20M per transaction per business day. FCA-authorised London partner. Gold & crypto exchange.
R	Xylem	Caribbean Digital Water Programme	Smart water management, NRW reduction, desalination, AMI metering & hurricane-resilient infrastructure.
R	Crowley	Caribbean Petroleum Storage Programme	Government strategic petroleum reserves, digital tank farm management & hurricane-hardened fuel logistics.
R	Honeywell	Smart Communities & Urban Infrastructure	Unified smart city command platforms integrating government services, transport, energy & citizen engagement.
R	Granicus	Government Digital Transformation	Digital citizen engagement, permitting, licensing & eGovernment platforms — 7,000+ government clients.
R	Genetec	Physical Security Solutions	Unified video surveillance, access control, LPR & AI-powered situational awareness for ports & government facilities.
R	Esri	GIS & Location Intelligence	National mapping, spatial analytics & disaster preparedness — trusted by 75% of the world's largest governments.
R	Cisco Duo	Zero Trust Identity & Cybersecurity	Multi-factor authentication, zero trust network access & identity security for government systems and citizen data.
R	Ignite Energy Access	Caribbean Clean Energy Programme	Distributed solar, mini-grids & commercial renewable energy reducing reliance on imported fossil fuels.
R	Miovision	Intelligent Transportation	AI-powered traffic intelligence, signal optimisation & smart mobility for Caribbean cities and tourist corridors.
R	FarmERP	Caribbean Agribusiness ERP Programme	AI cloud ERP for plantation management, contract farming, export compliance & supply chain. 30+ countries.
R	Climate Impact Partners	Carbon Credits Programme	Transform Caribbean forests, mangroves & climate initiatives into verified carbon credits sold to corporate buyers.
R	AGRIVI	Agricultural Digitalisation Programme	Precision farming, crop monitoring, supply chain traceability & food security planning for Caribbean islands.
R	TaxOnline	Digital Tax Administration	Digital tax systems for revenue authorities — automated filing, e-invoicing & real-time compliance reporting.
R	Ascertia	Digital Trust & Identity	Digital signatures, identity verification & document trust infrastructure for legally-binding digital transactions.

Each programme brochure contains a detailed overview, Caribbean deployment case studies, and an intake questionnaire. Complete the questionnaire for any programme of interest and return to Patrick Glemaud — DWN will manage all introductions and negotiations with each respective partner company.
